

caesar klimenko, designer

Caesar has over 25 years experience in graphic and product design with valuable expertise in designing brand or corporate philosophy and identity. for the last 10 years he has built a collateral webdesign specialisation, enabling him to express his design ingredients in the digital world. his ongoing work with preparing students requires him to be in touch with latest trends in visual marketing, infusing this knowledge to the innovation projects. he is currently getting his doctorate in Graphic design and Webdesign, Digital Art

he is extensively qualified to offer consultancy services in online strategy and communication: presence, programming skills, design

his undergoing doctorate in Graphic-Design and Webdesign - "the study of visual communication in the new media and its influence in the universal culture and society" - gives a very depth knowledge in the field, enriching significantly his vast on the job experience
